SUMMARY:

Engineering student skilled in Python, SQL, R, and C++ with experience in scalable backend systems, ML model development, and data pipelines. Proficient in PyTorch, TensorFlow, and FastAPI, focused on efficient and interpretable AI solutions.

EXPERIENCES:

Sohan Lal Commodity Management Ltd., Delhi
SDE Intern **July 2025 – Oct 2025**
Worked on designing, developing, and testing software features to enhance system performance and reliability. Collaborated with senior engineers to implement scalable solutions, optimize code, and improve overall product efficiency.

Sohan Lal Commodity Management Pvt. Ltd., Delhi
AI Project Intern **Aug 2024 – Oct 2024**
Developed and fine-tuned image classification models to improve object detection accuracy through data collection and preprocessing, while collaborating with teams to deliver scalable AI solutions.

EDUCATION:

Guru Tegh Bahadur Institute of Technology, Affiliated to GGSIPU
BTech (Artificial Intelligence & Machine Learning) 2022 – 2026
(CGPA: 8.43)

PROJECTS:

Explainable Transformer Chatbot (*Python, Hugging Face, PyTorch, Explainable AI)*
Built a chatbot leveraging transformer models with attention visualization to improve interpretability and user trust. Integrated explainability techniques to analyze decision flow and enhance transparency in NLP applications.

Transformer Attention Visualizer (*Python, Matplotlib, Hugging Face)*
Developed an interactive tool to visualize transformer attention heads across layers. Enabled researchers and developers to better interpret model behaviour, improving debugging and trust in LLMs.

Image Quality Analysis (*Python, OpenCV, TensorFlow, Image Processing)*
Implemented algorithms to assess image clarity, brightness, and sharpness for quality assurance. Applied deep learning techniques to classify low-quality images, aiding automated filtering systems.

SKILLS:

- Languages: Python, R, Java, C/C++
- ML/DL Frameworks: PyTorch, TensorFlow, scikit-learn, Hugging Face Transformers, OpenCV, XAI
- Cloud & MLOps: AWS (EC2), Docker, FastAPI, REST APIs, Git
- Databases: SQL, PostgreSQL, MongoDB
- Soft Skills: Problem-Solving, Team Collaboration, Adaptability, Time Management

PUBLICATIONS:

- An Analysis of Genetic Disorders using Artificial Intelligence (AGD-AI), CCICT 2025, Sonepat, India.

CERTIFICATIONS:

- A deep understanding of AI large language model mechanisms, Udemy, 2025
- The Data Science Course: Complete Data Science Bootcamp in 2024, Udemy, 2024
- Advanced Excel with Data Visualization, E & ICT Academy, IIT Kanpur, 2024

ACHIEVEMENTS:

- Won 3rd position in Smart Delhi Ideathon 2025 (Theme SDI005- Women Safety)

LEADERSHIP & ACTIVITIES:

- Class Representative, AI & ML Batch: 2022-2026
- President, Nexus- The AI Society, 2024-2025
